

Lecture Plan BA 1st Semester Unit - I

Topic : Stages of Growth and Development (Meaning and Definitions of growth and development)

① Objective :

- It enable the students to compare the meaning and definitions of growth and development.

② Teaching Points :

(a) Meaning of Growth:

- Growth refers to structural and physiological changes.
- It refers to increase in physical size of whole or any of its part.
- It involves changes in quantitative aspects.
- Growth does not continue throughout life.
- It is observable in nature and subject to measurement.
- Growth may and may not bring development

(b) Definitions:

- Harlow has defined growth as "Change in size, in proportion, disappearance of old features and acquisition of new ones."

(c) Meaning of Development:

- Development implies overall changes in structure.
- It indicates the changes in quality or character.
- It is a continuous process.
- Development can be assessed through keen observation.
- It is possible without growth.

(d) Definition :

- Aron and Aron (1965): "Development is concerned with growth as well as those changes in behaviour which results from environmental situation."

(3) Recapitulation :

- Therefore, both the terms growth and development explain the total changes - functional as well as constitutional changes in the body and behaviour of the individual.

(4) Question :

- Differentiate between growth and development.

BA 1st Semester
Unit - I

Topic: Case Study (Steps, Merits and Demerits)

① Objective :

- To familiarise the students with the steps used in case study method.
- To enable the students to bring out the benefits and drawbacks of case study method.

② Teaching Points :

(a) Steps in Case Study :

- Determination of the status of phenomena.
- Determination of the most probable antecedents of the case.
- Formulation of definite hypothesis or set of hypotheses
- Verification of the hypothesis.
- Remedial steps
- Follow-up

(b) Merits of Case Study :

- It provides deep, intensive and overall investigation of behaviour.
- It may be the only method for studying rare behaviours.
- It play an effective role in the diagnosis, adjustment and rehabilitation of the problem children.
- Information received through case study may prove more effective.

(c) Demerits of Case Study :

- It cannot be entrusted to the classroom subject teachers.
- There are a lot of difficulties and utilization of individual resources in terms of time, labour and money.
- There is no guarantee of objectivity.

- The field of application of this method is quite narrow and limited.

③ Recapitulation:

- Case Study is therefore a valuable method of research, with distinctive characteristics that make it ideal for many types of investigations.

④ Question:

- What are the suggestions needed for making a case study?

⑤ Assignment:

- Discuss case study as an effective tool used in the study of a problem child in the field of education.

BA 1st Semester

Unit - I

Topic : Case Study (Meaning and Characteristics)

① Objective :

- To make students understand the importance of case study method in studying the behaviour of a problem child in educational process.

② Teaching Points :

(a) Meaning of Case Study

- Case Study is a study of individual case
- It is in-depth analysis of a person.
- It is applied to study special behavioural problems of an individual.

③ Characteristics of a good Case Study

- Completeness of data
- Validity of data
- Confidential recording
- Scientific synthesis
- Continuity

Unit - I
Topic - Observation Method (Steps and Types)

① Objective :

- To help the students to know the steps to be followed in observation method
- To enable the students to know the types of observation method.

② Teaching Points :

(a) Steps in Observation Method

- Proper Planning
- Proper Execution
- Proper Recording
- Proper Interpretation

(b) Types of Observation

(i) Participant Observation

- It means watching the events or situation from inside.
- The observer plays a double role.
- He becomes by and large a member of the group

(ii) Non-Participant Observation

- It involves observing participants without actively participating.

③ Recapitulation :

- Observation is therefore a powerful tool of psychological enquiry.
- It is an effective method of describing behaviors.

④ Assignment:

- Describe observation method as a powerful tool in studying behaviours in the field of education.

⑤ Reference :

- Essentials of Educational Psychology SK Mangal

Lecture Plan

BBA 1st Semester

Unit - I

Topic - Observation Method (Meaning, Definitions, Merits and Demerits)

① Objective:

- To enable the learners to understand the purpose of collecting relevant data through observing.

② Teaching Points

(a) Meaning of Observation Method

- Observation is a method to observe the behaviour of a subject.
- It is the most commonly employed of all measurement techniques.
- Measurement without instrument

(b) Definitions:

- Lydon - 'Observation deals with the overt behaviours of persons in appropriate situations'
- John Dollard - 'The primary research instrument would seem to be the observing human intelligence trying to make sense out of human experience.'

(c) Merits of Observation:

- It is more reliable.
- It studies individual in natural situation.
- It does not require any special tool.
- It can be used in every situations.

(d) Demerits of Observation:

- There is great scope of personal prejudices.
- Records may not be accurate.

- It reveals the overt behaviour only.

(3) Question :

- Bring out some of the merits of observation method in educational psychology.

(4) Reference :

- Essentials of Educational Psychology

SK Mangal

Lecture Plan
BA 1st Semester
Unit - I

Topic: Concept of Educational Psychology.

① Objective:

- To enable the students to understand the meaning and definitions of Educational Psychology.

② Teaching Points:

(a) Meaning of Psychology:

- Psychology is the study of human behaviours.

- It concerns itself with the scientific investigation of behaviours.

- It is the positive science of the conduct of living creatures.

⑥ Recapitulation

- Adolescence is the period of psychological and social transition between childhood and adulthood.

⑦ Questions :

- What do you understand by adolescence behaviour?

⑧ Assignment

- Discuss the problems faced by adolescence and role of education for adolescence;

⑨ Reference :

- Development Psychology - Choube, S.P
- Educational Psychology - Dash M

Equality of educational opportunities

- 1) - Meaning of Equality.
 - " " in education
 - " " in educational opportunities.
 - 2) Need for emphasising equality of opportunity in education.
 - egalitarian society establishment
 - success of a democratic society
 - advancement of a nation
 - search for talents among people.
 - developing a link betⁿ manpower and availability of skilled personnel.
- After thorough discussion on the points, reviewing is done to understand that students are clear with the concept.
- Questions are asked by feedback is also given on the basis of responses given by students.

Modernisation :

- Meaning of Modernisation.
 - Background about the term modernisation
 - Definitions on Modernisation
 - Analysis on definitions.
- Characteristics of Modernisation.
 - Social mobilisation
 - Social differences
 - Structure differentiation & change
 - Change in organisation
 - Urbanisation
 - Social / Political movements
 - Comprehensive education
 - International co-operation

Recapitulation :- on meaning, characteristics etc.

- Asking questions related to the topic.
- Feedback on the responses given by students
- H/W / Assignments.

BA 1st Semester

Unit - 1

Ipii-Application of Educational Psychology in teaching and learning

① Objective :

- To help students aware on the importance of application of educational psychology in teaching and learning

② Teaching Points :

(a) Application of Educational Psychology in teaching and learning

- Knowledge of the self
- Knowledge of the learner
- Selection of methods of teaching
- Knowledge of Individual Differences
- Adjustment and Discipline
- Solving the problems of classroom
- Improvement in curriculum construction
- Measurement of learning outcomes
- co-curricular activities
- Improving personal relations
- Use of Innovations
- Experiment and Research

③ Assignment :

- Discuss the application of educational psychology in teaching and learning process.

④ Reference :

- Advanced Educational Psychology

SK Mangal

BA 1st Semester

Unit - 1

Topic - Scope of Educational Psychology

① Objective :

- To help students to develop an understanding of the subject matter of the field educational psychology

② Teaching Points:

(a) Scope of Educational Psychology :

- The learner
- Learning experiences
- The learning processes
- Learning situation or environment
- The teacher

③ Assignment :

- Discuss the scope of educational psychology.

④ Reference :

- Advanced Educational Psychology

Ram Nath Sharma / P.K. Sharma

Lecture Plan
BA 1st Semester
Unit - I
Topic - Needs of Educational Psychology

① Objective :

- To enable the students to bring out the importance of educational psychology in teaching and learning process.

② Teaching Points :

③ Needs of Educational Psychology :

- To know the learner
- To select and organise the subject matter or learning experiences.
- To suggest art and techniques of learning as well as teaching.
- To arrange learning situations or environment
- To acquaint him with the mechanism of heredity and environment.
- To help in maintaining discipline
- To render guidance services
- To help in evaluation and assessment
- To solve classroom problems
- To know about himself.

④ Assignment:

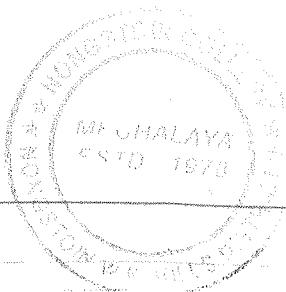

- Why is the knowledge of educational psychology important in the field of education?

⑤ Reference:

- Advanced Educational Psychology

Ram Nath Sharma / K. K. Sharma

Lecture Plan: BA. 5th Semester

Unit I : Education and Philosophy

Topic : Education and Philosophy

Subtopic : concept and their relationship (2 classed)

Objective : To enable the student understand the concept and their relationship.

Learning Points:

- 1) Meaning of Education :
 - 2) Definitions :
 - 3) Meaning of Philosophy :
 - 4) Definitions of Philosophy :
 - 5) Meaning of Educational Philosophy :
 - 6) Definition of Educational Philosophy :
 - 7) Relationship between Philosophy and Education
- Philosophy determines the real destination toward Education
 - Philosophy deals with the end and education is the means to achieve those end.
 - Great philosophers have been great educationists
 - Philosophy determines the various aspects of Education
 - Aims of education
 - Curriculum
 - Methods of teaching
 - Discipline
 - Method of evaluation
 - Textbook
 - Teacher

Educational Implication: Philosophy and Education are inseparable in the field of education.

Recapitulation: of the topic through Question-answer method

feedback was provided on the basis of the ability to answer the questions.

Unit : I - Education and Philosophy (2 periods)

Sub-unit - Aims of Education

- a) Individual Aim
- b) Social Aim

Objective : To enable the student understand the meaning of individual aim and social aim of education.

Teaching Points : (A) Individual Aim

- 1. Meaning of Education
- 2. Meaning of Aim
- 3. Meaning of Individual
- 4. Meaning of Individual Aim of Education
- 5. Supporters of Individual Aim of Education
 - Prof. G. Thomson and Rousseau (Naturalists)
 - Psychologists
 - Spiritualists
- 6. Criticism of the individual aims of Education

Educational Implication : Importance of Individual Aims of Education for child's development.

Recapitulate through question answer method.

feedback on the basis of the ability to answer the question.

Learning Points (B) Social Aim of Education

- 1) Meaning of social :
- 2) Meaning of Social Aims :
- 3) Supporters of Social Aims of Education
 - The Socialists
 - Gandhi
 - John Dewey
 - Raymond
 - Education Commission 1964-66
- 4) Limitations/ Demerits
- 5) Synthesis between Individual and Social Aims of Education

Educational Implications: Both social and individual aims of education are important for the students

Recapitulate through question answer method

Feedback was provided on the basis of the ability to answer the questions.

Assignment: library work
