

Lecture Plan 5th Semester Paper VI
International Trade

Teacher's name E. Khan

Unit I

Duration 50 minutes

Topic I - Concept of International Economics
& nature & Scope

Teaching Points (1) Meaning of IE

(2) Scope & nature of IE

International economics is divided into two parts (a) theoretical & descriptive IE, theoretical one divided into Pure theory & Monetary theory. (b) Descriptive deals with issues related to international flows of goods & services.

Unit I

Duration 50 minutes

Topic II - Concept of PPC, CIC
offer Curves

(a) PPC explanation with diagram

5th Semester International Economics

Unit I E. Ohan
Topic - Heckscher Ohlin theorem Duration 50 minutes

Teaching Points

- ① Concept of H-O theorem
- ② Assumptions
- ③ Criticism

Unit II

Duration 50 minutes

Topic Immiserizing growth

Teaching Points

- ① Meaning of I.G.
- ② Explanation with figure

Unit III

Duration 50 minutes

Topic - World Bank

Teaching Points - ① Objectives of W.B.

- ② Benefits of India from the W.B.

Unit IV

Duration 50 min

Topic - Foreign Trade Multiplier

Teaching Points ① Concept of F.M

- ② Assumptions
- ③ Criticisms.

Topic - BRICS Bank

Duration 50 min

Teaching Points - ① The emergence of BRICS bank

- ② Objectives
- ③ To promote technology
- ④ To bridge the gap with dev & under nations
- ⑤ To diversify trade
- ⑥ To promote inclusive eco growth
- ⑦ To create a cordial investment among the members

International Economics 5th Sem

Smt-E Dktz Duration 30 minutes

Unit I

Topic - Box diagram

Teaching Points - (1) Meaning of box diagram

(2) explanation with figure

(3) Use of box diagram in the theory of IT

Unit II - Concept of the Terms of Trade Duration 50 minutes

Teaching Points

(1) meaning of the TOT

Diff concepts of TOT

(1) NRT (2) GRT (3) TS (4) TD (5) Tu (6) TS

Unit III

Topic - Reciprocal demand Duration 1.40 hours

Teaching Points (1) meaning of Reciprocal demand. (2) Assumptions. (3) Demonstration of the model with example

Unit III

Topic - optimum Tariff

Teaching Points

Duration 50 minutes

(1) meaning of optimum Tariff

(2) optimum Tariff without retaliation

(3) optimum Tariff with retaliation

Lecture Plan 6th Semester
Economics - Public Economics

Unit 1

Duration 50 mins

Topic - Nature & Scope of Public Economics

Name of a Teacher
Smt E. Dhar

Unit I

Teaching Points ① Concepts of Public Economics

② Objectives of PE

- (a) High private consumption (b) Satisfaction of collective wants (c) Ensure Eco growth (d) Influence income distribution (e) high employment (f) equitable distribution of income (g) stable price level and balance trade (h) efficient use of resources

Unit I

Topic - Public goods, Private goods and Merit goods

Duration 50 mins

- Teaching Points ① Public goods & Public bads
② Private goods & characteristics
③ Characteristics of Public goods
④ Merit wants & allocation of resources

Unit II

I Topic ~~Meaning of tax~~ Tax

Duration 50 minutes

Teaching Points ① Concepts of Tax

② Types & Classifications of Tax

- (a) Direct (b) Indirect (c) Progressive (d) regressive (e) Proportional (f) value added Tax (g) excise

Unit II

2nd Topic

Canons of Taxation

Teaching Points - ① Concept of Canons of Tax

(a) Equi

Teaching Plan 6th Semester Public Economics

Unit III

Duration 50 minutes

Sub E. Dikhan

1 Topic - Canons of Public expd.

Teaching Points ① Meaning of PE

② Canons of PE (a) Canons of benefits, economy, sanctions, surplus, elasticity, Productivity, equitable distribution, coordination

Unit III

Duration 50 minutes

2 Topic - Principles of Maximism advantages

Teaching Points ① Meaning of maximism advantages ② Explanation the concept with Diagram ③ Limitations of the theory

Unit III

3 Topic - Growth of PE. Duration 50 min
factor influence of growth of PE

(a) Income elasticity (b) Growth of Popn & Urbanisation (c) Technical change (d) level of Devn (e) Democratic Govt (f) Increase of Price level (g) welfare state (h) attitudes of Govt (i) Development Planning (j) Defective financial & civil administration

Unit IV

Duration 30 min

Topic - Fiscal Policy

Teaching Points ① Meaning of Fiscal Policy

② Objectives of Fiscal Policy -

(a) Mobilisation of resources (b) optimum allocation of resources (c) Acceleration of eco growth (d) Reduction of income inequalities (e) increase employment (f) Price Stability

Public Economics Sem 6

Unit V

Duration 50 minutes

Topic - Sources of Public Borrowings
Teaching Points (1) Internal sources

- (a) Individuals & Private organisation
- (b) Financial Institutions (c) Commercial banks
- (d) Central bank

- (2) (a) Foreign Nationals & Private organisation
- (b) donor Govts (c) International financial institutions like W.B. IMF, UNDP, IFC

- (d) Economic forums like OPEC funds, BRICS,

Duration 50 minutes

Topic - Problems of Borrowings face by Govt of developing countries

Teaching Points (a) Creditors mainly granted non-concessional loans

- (b) Poor debt management & low Govt revenue
- (c) Rise in global interest rates and shorter maturities
- (d) Political & social instability

Topic Budget Classification Duration
Teaching Points (1) Meaning of budget

(2) Types of Classification

- (a) economic classifications includes compensation of employees, purchase of goods and services, consumption of fixed capital, interest, subsidies, grants, social benefits & other expenses
- (b) functional classifications includes general public services, defence, public order and safety, economic affairs, environmental protection, housing & community amenities, health, recreation & culture, education & social

Lecture Plan Micro Economics Sem I

Duration 50 minutes

Name of Teacher

Unit I Chapter 1

Smt E. Dhar

Topic I Concept of Demand & Supply.

Teaching Points - Meaning of demand

- 2) Factors determining demand, Price, Taste, Preferences, expectations, income of the c/c, distribution of income
- 3) Meaning of supply.
Factors determining supply - Price, Factors of Production, Govt. Policy, business expectation, changes of Technology, Price of related goods.

Unit I Chapter I

Duration 50 minutes

Topic - II Price Mechanism.

Teaching Points - Meaning of Price Mechanism

(2) Role of Price mechanism in a free market

- ① what & how to produce
- ② determine income distribution
- ③ to utilize the resources fully
- ④ to encourage economic growth

③ ~~Role~~ Limitations of Price mechanism (1) Govt-intervention as modern state is a welfare
② maldistribution of income

Unit I Chapter II

Duration 50 minutes

Topic - ~~Meaning~~ ~~of~~ Price Elasticity of

Topic I elasticity of demand

Teaching Points - Meaning of Price Elasticity

Micro economics Sem I
Sri E. Othar

Chapter II

Duration 50 minutes

Topic A. Measurement Price elasticity
of demand
1) Treacher's Paents (or) Point Method
(b) Total outlay method.

Chapter II Topic

Duration 50 mins

Topic IV Measurement Price elasticity
of demand arc method or betn two
points of the demand curve

Chapter III

Duration 50 mins

Topic I -> Meaning of Indifference curve
2) Indifference map explanation with
figure

Lecture Plan

Microeconomics Prof. E. Olay

Chapter III

Duration 50 minutes

Topic I - Properties of IC

Teaching Points 1) IC convex to the origin

2) IC is downward slope

3) IC never intersect each other

4) Higher IC indicates higher level of satisfaction

5) IC never touch x or y axis

Chapter III

Duration 50 minutes

Topic - Consumer equilibrium in terms of IC analysis

Teaching Points 1) Meaning of CS equm.

2) Conditions of CS equm.

3) Assumptions of CS equm

3) Explanation of CS equm

Chapter III

Duration 50 min

Topic - Limitations of IC analysis to measure CS equm

Teaching Points 1) fails to explain CS behaviour through cardinal measurement, rational assumption of CS behaviour is invalid, to explain indivisible goods, apply only two goods, unrealistic assumptions of perfect competition
