

SYNOPSIS OF LECTURE, 2016

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Impact of population growth on environment.

Objectives – To educate the students to understand the impacts of a polluted environment,

Teaching points :

Impact of population growth on environment ,

1. Depletion of natural resources
2. Strain on land,
3. Intensive use of land,
4. Desertification,
5. Climatic change,
6. Threat to biodiversity,
7. More generation of waste,
8. Affect on ocean and seas,
9. Threat to hydrological cycle,
10. Effect of urbanization,,

Recapulation

1. i. Depletion of natural resources
2. Strain on land,
3. Intensive use of land,
4. Desertification,

SYNOPSIS OF LECTURE, 2016

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Impact of environment on population growth.

Objectives – To educate the students to understand the importance of good habitat.

Teaching points :

Impact of environment on population growth,

1. Quality of life,
2. The habitat,
3. Providing food,
4. Poverty of the people,
5. Importance of environment for sustainable development,
6. To maintain balance between economic quality and quantity.

Recapulation

- i. Recap of the whole thing,

SYNOPSIS OF LECTURE, 2016
For B.A.2nd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Economic growth.

Objectives – To educate the students to understand the problems of pollution.

Teaching points :

Meaning of economic growth,

Factors affecting economic growth ,

Economic factors:

1. Natural resources,
2. Investment in human capital formation,
3. High rate of capital formation,
4. Suitable size and quality of population,
5. Suitable technology,
6. Removing market imperfections,
7. Structural changes,

Non-economic factors:

1. Good, efficient and stable Government,
2. Progressive socio-cultural atmosphere,
3. Social justice,
4. Psychological factors,
5. Law & order situation

Recapulation

- i. Factors affecting economic growth,

SYNOPSIS OF LECTURE,2016

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Environment Pollution and degradation.

Objectives – To educate the students to understand the problems of pollution.

Teaching points :

Meaning of environment pollution and degradation,

Causes of environmental pollution ,

1. Population growth,
2. Increasing number of people below poverty line,
3. Increasing urbanization,
4. Modernisation of Agriculture,
5. Rapid industrialisation,
6. Transport,
7. Discard of civic norms,

Recapulation

i. Causes of environmental pollution,

SYNOPSIS OF LECTURE, 2017

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Impact of population growth on environment.

Objectives – To educate the students to understand the impacts of a polluted environment,

Teaching points :

Impact of population growth on environment ,

11.Depletion of natural resources

12.Strain on land,

13.Intensive use of land,

14.Desertification,

15.Climatic change,

16.Threat to biodiversity,

17.More generation of waste,

18.Affect on ocean and seas,

19.Threat to hydrological cycle,

20.Effect of urbanization,,

Recapulation

5. i. Depletion of natural resources

6. Strain on land,

7. Intensive use of land,

8. Desertification,

SYNOPSIS OF LECTURE, 2017

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Impact of environment on population growth.

Objectives – To educate the students to understand the importance of good habitat.

Teaching points :

Impact of environment on population growth,

7. Quality of life,

8. The habitat,

9. Providing food,

10. Poverty of the people,

11. Importance of environment for sustainable development,

12. To maintain balance between economic quality and quantity.

Recapulation

i. Recap of the whole thing,

SYNOPSIS OF LECTURE, 2017
For B.A.2nd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Economic growth.

Objectives – To educate the students to understand the problems of pollution.

Teaching points :

Meaning of economic growth,

Factors affecting economic growth ,

Economic factors:

8. Natural resources,
9. Investment in human capital formation,
10. High rate of capital formation,
11. Suitable size and quality of population,
12. Suitable technology,
13. Removing market imperfections,
14. Structural changes,

Non-economic factors:

6. Good, efficient and stable Government,
7. Progressive socio-cultural atmosphere,
8. Social justice,
9. Psychological factors,
10. Law & order situation

Recapulation

SYNOPSIS OF LECTURE,2021

For B.A.2nd Semester,

Shri.B.Rynshiang

Department of Economics

Topic – Environment Pollution and degradation.

Objectives – To educate the students to understand the problems of pollution.

Teaching points :

Meaning of environment pollution and degradation,

Causes of environmental pollution ,

36.Population growth,

37.Increasing number of people below poverty line,

38.Increasing urbanization,

39.Modernisation of Agriculture,

40.Rapid industrialisation,

41.Transport,

42.Discard of civic norms,

Recapulation

i. Causes of environmental pollution,

SYNOPSIS OF LECTURE, 2016
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Role of public sector enterprise in India.

Objectives – To educate the students to understand the contribution of Public Sector Enterprise & at the same time to teach them that in future after completion of their studies if they will employ in any sector they will contribute their services effectively.

Teaching points :

Meaning of public sector,

Role of public sector:

1. capital formation,
2. development of infrastructure,
3. strong Industrial base,
4. Economies of scales,
5. Removal of disparities,
6. Export promotion and import substitution,
7. Check our concentration of economic Power,
8. performance of public sector -

Recapulation

i.What is CPSE and its role,

ii.Why CPSE are inefficient.

Assignment – describe the role of public sector enterprise in India.

SYNOPSIS OF LECTURE, 2016
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Public distribution system.

Objectives – To educate the students to understand the importance of Public distribution system.

Teaching points :

Meaning of Public distribution system,

The importance of Public distribution system

Types of goods under Public distribution system:

1. Foodgrains such as rice,wheat and sugar ,
2. Kerosene oil,

The Weaknesses of Public distribution system:

1. Rural-urban bias,
2. Rise in prices,
3. Corruption in the system,
4. Failure to serve the poorer,

Recapulation

- i. Meaning of Public distribution system,
- ii. The Weaknesses of Public distribution system.

SYNOPSIS OF LECTURE, 2016
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Trends in agricultural production & productivity.

Objectives – To educate the students to understand the role of Agricultural sector in Indian economy and to make students aware of the facts that agriculture is the backbone of an economy.

Teaching points :

Meaning of agricultural productivity,

Trends in agricultural production and productivity:

1. There was a steady increase in area under cultivation,
2. There was a steady rise in average yield per hectare,
3. As a consequence of rise in area and productivity, the production of all agricultural crops has been in a rising trend,
4. Growth in agricultural production,
5. Growth in agricultural productivity of yield,

Recapulation

- i. Trends in agricultural production,
- ii. Trends in agricultural productivity.

SYNOPSIS OF LECTURE, 2016
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Land reforms.

Objectives – To educate the students to understand the evils of intermediaries in Indian agriculture.

Teaching points :

Meaning of Land reforms,

Features of Land reforms in India:

1. Abolition of intermediaries,
2. Tenancy reforms,
3. Ceiling on Land holdings and distribution of surplus Land,
4. Consolidation of holdings,
5. Organisation of co-operative farming,

Recapulation

i. Evils of intermediaries,

ii. Forms of intermediaries.

Assignment – Agricultural Marketing,

SYNOPSIS OF LECTURE, 2016
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Green revolution.

Objectives – To educate the students to understand the importance of agriculture.

Teaching points :

Meaning of Green revolution,

Achievements of Green revolution :

1. Improvement in the production of foodgrains ,
2. Increase in the production of commercial crops,
3. Green revolution helps to boost agricultural employment
4. It helps to strengthen industry-agriculture relation,

Weaknesses of Green revolution :

1. Growth of capitalist farming,
2. Disparities in income and wealth,
3. Dry areas and many of the crops are not covered,
4. Problems of labour displacement,

Recapulation

- i. Achievements of Green revolution,
- ii. Weaknesses of Green revolution.

SYNOPSIS OF LECTURE, 2017
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Role of public sector enterprise in India.

Objectives – To educate the students to understand the contribution of Public Sector Enterprise & at the same time to teach them that in future after completion of their studies if they will employ in any sector they will contribute their services effectively.

Teaching points :

Meaning of public sector,

Role of public sector:

9. capital formation,
10. development of infrastructure,
11. strong Industrial base,
12. Economies of scales,
13. Removal of disparities,
14. Export promotion and import substitution,
15. Check our concentration of economic Power,
16. performance of public sector -

Recapulation

- i. What is CPSE and its role,
- ii. Why CPSE are inefficient.

Assignment – describe the role of public sector enterprise in India.

SYNOPSIS OF LECTURE, 2017
For B.A.3rd Semester,
Shri.B.Rynshiang
Department of Economics

Topic – Trends in agricultural production & productivity.

Objectives – To educate the students to understand the role of Agricultural sector in Indian economy and to make students aware of the facts that agriculture is the backbone of an economy.

Teaching points :
