

Report on Educational Field Trip Undertaken by Department of Botany Nongstoin College

The Field Trip was conducted by the Department of Botany Nongstoin College for the B.Sc 3rd Semester in fulfilment the Nehu Syllabus, Botany Paper III (practical) on the 2nd March 2021. The location of the educational field trip is at Mawrusyiar which is located just about 2 km from the Nongstoin headquarter. The place is dense with the diversity of flora ranging from lower plant like bryophytes, pteridophytes to the higher plants species including herbs, shrubs and trees.

The purpose of the trip is usually observation for education, non-experimental research, for collection and identification of plant species for herbarium sheet or to provide students with experiences outside their everyday activities. The aim of this trip is to observe the subject in its natural state and collection of plants used by the ethnic people.

Broaden students horizons and knowledge through the introduction of tropical plant diversity Also applying knowledge and skills acquired in the lecture and laboratory; and as a training tool for the planning and implementation of direct observation of specimens in their habitat
